Summary

Software Developer with experience in building web and mobile applications. Proficient in **Next.js**, **React.js**, **Node.js**, **Java/Spring Boot**, **Flutter**, and **React Native**. Skilled in deploying cloud-based solutions on **Google Cloud Platform (GCP)** and **OVH Cloud**. Passionate about creating innovative, user-friendly solutions and contributing to impactful projects.

Education

University of Siegen   *Siegen, Germany*
MS in Computer Science   *Oct 2022 – Mar 2025*
- GPA: 7.80
- **Coursework:** Computer Architecture, Parallel Processing, Visual Computing

Savitribai Phule Pune University   *Pune, India*
BE in Computer Engineering   *Aug 2017 – June 2021*
- GPA: 9.06
- **Coursework:** Math, Algorithms, Microprocessor, Web Technology, DBMS, Machine Learning

Experience

Software Developer   *Cologne, Germany*
Axess Intelligence GmbH   *Mar 2023 – Mar 2025*
- Designed and implemented an **automated pipeline tool** to **screenshot and display 1k+ push notifications and email data per day** collected from the mobile app.
- Built the backend for the mobile app using **Python (FastAPI)** and **PostgreSQL**, ensuring **99.9% uptime**, for secure user authentication, and efficient data storage.
- Developed a **Flutter** app (Android and iOS) to automate **marketing touchpoints collection** (emails, push notifications, in-app messages), improving data collection efficiency from **40%** of the users.
- Deployed services on **Google Cloud Platform** and **OVH Cloud**, and utilized Google Cloud Scheduler for automated daily triggers.

Software Engineer   *Mumbai, India (Remote)*
Nimblework, Inc. (formerly Digité, Inc.)   *Jan 2021 – July 2022*
- Built Kairon, a SaaS platform for **creating contextual chatbots**, using **React.js**, **Rasa** and **Python (FastAPI)** serving **1k+ monthly active users**.
- Designed and developed the **user interface from scratch**, ensuring a responsive and intuitive experience with an average **40% improvement in user engagement**.
- Strengthened **product development skills** through active participation in brainstorming sessions and contributing to building a product from scratch.
- Designed and developed **innovative tools** to streamline **Marketing team workflows**, automating **60% of repetitive tasks**, leading to a **2x increase in efficiency**.

Fullstack Developer   *Mumbai, India (Remote)*
10xGrowth   *June 2020 – Dec 2020*
- Developed **API services** using **Node.js**, **Firebase**, and **MongoDB** to support platform features.
- Designed and implemented dynamic, responsive interfaces with **Next.js** and **React.js**, improving mobile performance by **25%** and adhering to a **mobile-first** design philosophy.
- Leveraged tools like **Redux.js**, **LoopBack.io**, and **Google Cloud Platform** for efficient application development.

Technical Skills

React.js, Node.js, Flutter, React Native, Java/Spring Boot, Python/FastAPI, Google Cloud Plaform (GCP), PostgreSQL, MySQL, MongoDB, JUnit, Kafka, Docker
